A Letter to You

Your personalized cosmic compatibility blueprint

Dear Arjun,

This Kundli Matching Report is a deeply personalized compatibility analysis drawn from the precise birth charts of both partners. It is not a generic compatibility guide — every score, every koota, and every recommendation is calculated specifically for your unique pairing.

By comparing the Moon signs, nakshatras, and planetary positions of both charts through the ancient Ashtakoot Guna Milan system, this report reveals the strengths, challenges, and true potential of your partnership across all eight dimensions of compatibility.

In the pages that follow, you will find a comprehensive analysis covering individual birth profiles, the complete 8-koota matching with detailed scores, Mangal Dosha assessment, Nadi and Bhakoot dosha checks, marriage karakas, married life predictions, and compatibility across all life areas.

Remember: Kundli matching illuminates cosmic compatibility and karmic bonds, but love, understanding, and commitment are the ultimate forces that sustain a marriage. Use this report as a guiding light — to understand your strengths as a couple and consciously work on the areas that need attention.

How to Use This Report

- Read the Ashtakoot Overview first for your overall compatibility score.
- Check the Dosha Analysis for Mangal, Nadi, and Bhakoot considerations.
- Review Remedies for practical steps to strengthen your bond.

Two charts, one destiny. These pages will illuminate the path you walk together.

With cosmic guidance,

CosmiqueAI Astrology Team

Understanding Kundli Matching

The ancient science of Ashtakoot Guna Milan

Ashtakoot Guna Milan is the Vedic system of compatibility analysis used for centuries to assess the harmony between two individuals before marriage. The word 'Ashtakoot' means '**eight points**' — referring to eight distinct dimensions of compatibility that are evaluated by comparing the **birth charts (Kundlis)** of both partners.

The system assigns a total of **36 Gunas (points)** across the eight kootas. Each koota examines a specific aspect of the relationship — from **spiritual alignment** (Varna) to **health and genetic compatibility** (Nadi). The analysis is primarily based on the **Moon signs and Nakshatras** (birth stars) of both individuals, as the Moon represents the mind and emotions in Vedic astrology.

The Eight Kootas at a Glance

#	KOOTA	EVALUATES	MAX PTS
1	Varna	Spiritual compatibility & ego harmony	1
2	Vashya	Mutual attraction & power balance	2
3	Tara	Birth star compatibility & destiny	3
4	Yoni	Physical & intimate compatibility	4
5	Graha Maitri	Mental & intellectual friendship	5
6	Gana	Temperament & nature harmony	6
7	Bhakoot	Love, affection & emotional bond	7
8	Nadi	Health, genes & progeny (most critical)	8
Total			36

Score Interpretation

28–36 points	Excellent — highly compatible, very auspicious for marriage
24–27 points	Very Good — strong compatibility, marriage is recommended
18–23 points	Good — acceptable compatibility, proceed with awareness
12–17 points	Average — significant differences, remedies may be needed
Below 12	Not Recommended — serious incompatibility, thorough review required

Why Ashtakoot Matching Matters

Ashtakoot Guna Milan has been practiced for **over 3,000 years** in Vedic tradition. It is not merely a compatibility test — it is a **comprehensive framework** that evaluates whether two individuals can build a harmonious life together across all dimensions: **spiritual, emotional, physical, mental, and financial**. The system is based on the position of the **Moon at the time of birth**, which in Vedic astrology represents the mind, emotions, and inner nature of a person.

While a high score is encouraging, remember that **Ashtakoot is one tool among many**. The full birth chart analysis, **planetary periods (Dashas)**, and individual horoscope strength also play crucial roles. A lower Ashtakoot score with **strong individual charts** can still produce a wonderful marriage, while a high score with afflicted charts may face challenges. This report provides a **comprehensive view** combining all these factors.
